

nexstar *paintbrush fibers*

Nexstar fibers are created using advanced extrusion technology and polymer science. The cross sections are stable and help in fabrication of robust paintbrushes with a soft snap back. Secondary processing services like tipping & flagging, mixing etc. are available.

Mechanically Tapered for professional quality paintbrushes

	Hollow Round	Spoked	Solid Round CT	Ribbed CMT	OR
Cross Sections					 
Diameters & Lengths	7, 8 & 9 mils 0.18, 0.20 & 0.23 mm in lengths from 2" [51 mm]	9-10 mils 0.23-0.24 mm in lengths from 2" [51 mm]	6, 7 & 8 mils 0.15, 0.18 & 0.20 mm in lengths from 2" [51 mm]	7, 8 & 9 mils 0.18, 0.20 & 0.23 mm in lengths from 2" [51 mm]	butt/tip 12/08 or 9/05 mils 0.30/0.20 or 0.23/0.13 mm in lengths from 2" [51 mm]
Polymers	30/45/60 % PBT 70/55/40 % PET		30/45 % PBT 70/55 % PET	30/45/60 % PBT 70/55/40 % PET	55 % PBT 45 % PET or PA6.12
Std. Colors	Black/Bristle White/Gold Custom: Any		Black/Gold Custom: Any		Navy Black/Green Gold (R) Honey (SR) Custom: Any
Secondary Processing		Flagging; Mixing	Chemical Tipping; Mixing	Chemical +Mechanical Tipping & Flagging; Mixing	Tipping [Solid Round] Chemical & Mechanical Tipping & Flagging [Ribbed]; Mixing

A UNIQUE combination of mechanical and chemical processes help us create ribbed fibers with a soft bristle like rebound and bristle like flags at an economical price point. Full tapered fibers deliver top end performance and their combinations with level fibers presents new possibilities.

full tapered fibers do not have one diameter throughout their length. the dimeters at the butt & tip ends (before tipping) are used as ref.
